

TARGET #2

I have a story to tell and it may seem a little hard to believe however this is the story of a technology that can enslave every man, woman and child for generations.

I have been in this 24 hrs a day 7 days per week for years. I have been tortured and I can not escape! I am asking you to contact whoever you can and tell them to release us from this satellite technology that has me enslaved.

I have lost everything my wife, family and business. Financially and emotionally destroyed. I do not know what they want. I believe that they are trying to get me to comment suicide or (Google) "The Manchurian Candidate CIA operation mind control". This is not a joke!

I find others like me all over the internet and I can not believe that the world has gotten to this point. It is real! FSU Shooter Myron May Left Message: 'I Do Not Want to Die in Vain'. His social media activity revealed that he believed he was a "targeted individual," the term used by people who think the government and shadowy gangs are attacking them with mind control and invisible, remote weapons. In subsequent days, he made several posts on a Facebook page for "Targeted Individuals International," including one that asked, "Has anyone here ever been encouraged by your handler to kill with a promise of freedom?"

I believe they are deliberately creating potential domestic terrorists. All of which is being orchestrated and funded by U.S. tax dollars. There are more than 500,000 victims in the U.S. Access it through the NSA then check with the Targeted Individuals communities online and see how many of them have been put through The Manchurian Candidate scenario. It took me a couple of years to get back online and they have been trying to make me homeless. A lot of the targeted individuals will not have access to the internet or phone as their Controller - Technicians control all communications and redirect you calls. They control my computer even when I don't have internet access. Whatever they invisibly put around me gives them access to my electronic devices.

My Controller – Technician's spoke of "The Manchurian Candidate". They put me through drills and conditioning. Just go to the NSA and review my file, it has been a few years ago but if they are still using the same techniques trying to create the Manchurian Candidate or have the targeted individual commit suicide they would have succeeded many times. They told me that if it is within the individual they will pull it out of them!

They can do whatever they want to just about anyone without recourse because according to them "this does not exist". Which indicates to me that they do not have any over-site or accountability. This must change, someone must review what they are doing and how they are doing it. They must change their destructive techniques that I believe to have been in place for a very long time. It needs a complete overhaul and update of the entire system. Including the use of community stalking and Anonymous the loosely associated international

network of activist and hacktivist entities. We will not be able to remove it from existence. We can only pray that we are able to put controls in place to protect the World's population from the use of devices like these.

I am not sure of the destructive influence that this will have on humanity but we can not set ideally by and wait for the system to change itself while millions of people are being tortured daily.

The FSU Shooter Myron May was one of their creations. The techniques that are used by My Handler - Controller or Technician's are repeated over and over. You need to find out who or where these techniques are generated from and the duration of time they have been practicing them. There is no need to put the civilian population through this. The local Law Enforcement communities need to be made fully aware of its existence and possibilities of these technologies. Use me as an example request my file and find out what they have done to me and how and why they are still doing it today.

The NSA records everything except what the controller – technician's do not want them to in real time. But in the instance of the FSU Shooter Myron May they may not have deliberately deleted the events leading up to the shootings in real time. So the NSA should have a recording of the events and a log of what they were doing to him leading up to the shootings and more importantly why they didn't stop him and who his controller – technician's were. The same scenario of a targeted individual plays out over and over and has gone on for years. Find the culprits behind what they call games!

They have begun to enslave every living thing with a brain in the entire world. Americans and other global citizens are defenseless against this, because it is from within the individual. I am enslaved within my own body.

When they take over your mind with remote neural monitoring and other techniques, it is you. Your mind enslaves you because they control it. You are in conflict with your own mind.

You could adsorb it as yourself. Unless they do not want you to. Then they reveal themselves. Through Voices and actions that let you know they are with you and can see out of your eyes and take control of your body. They can monitor what you see on a computer screen. That is why the NSA will have record of it.

They are always deliberately creating emotional triggers which in itself would not be bad however they only use negative emotional triggers instead of positive reinforcement even in my dreams. The easy way to think of the controller – technician's are modern day Demons. Everything is negative without remorse or logic. It would be easy for them to say “We Have You And There Is Nothing You Can Do About It” instead they torture you. It is not logical to be tortured without a purpose other than they enjoy doing it.

They even control my dreams and emotions during the dream. I receive visions when I close my eyes even when I am not asleep and I have seen a hologram or a person standing at the foot of my bed. Sleep deprivation and pain. Pain sensors indicate how much and where you experience pain and they show up on a computer screen.

There is military technology that is invisible to the naked eye that can reach down inside of you and grip you and create pain. They can "lock you down" in pain and keep the pain constant for a very long time and there is not anything that can be done about it. They can stop the pain on the way to the doctor or move the pain around. They can also relieve pain. They can even see your intestines on a computer screen.

If they desire they can start the torment (torture) or if they chose to they can treat you like a friend and help you with your daily activities. Including memories and other cognitive skills because you can use their brain for the information you require.

I have been in it for years and I do not know how to extract myself from it. They have enslaved the human brain.

They are me and I am them and they are many. They are inhabitants that "ARE ME" for all practical purposes. They have the ability to take full control of my Mind and body. They could take my body outside and go somewhere and when they returned they could return me to my self and I would not remember where they (or myself) had gone or done.

They know what I am thinking as i think it. I do not have to verbalize it with my mouth. They know my subconscious thoughts. They see, feel, hear and taste what I do. They speak through my mouth and or talk to me in my mind. They can pull you out of yourself and put you into someone else.

As a inhabitant you would then have the ability to know what I know and my thoughts in real time. You must trust whoever is on the controls there is a down side to being an inhabitant. The controller of the technologies can kidnap your spirit and hold you hostage as an inhabitant. They will not let you go or end your existence. You feel what they feel as they feel it and it is unpleasant to you and to them because you share the same emotion and become self conscious. I have inhabitants within me that have been in here for years.

There is a cricket noise in my mind most of the time, that speaks from what sounds like the out side of my head (from a distance) but it is all from within my mind. It is not tinnitus it is actually words communicating to me through their technologies. They can turn up or down the volume.

They can pull the inhabitants forward to the point where you can feel the emotions of individual inhabitant and its personality. They can pull the inhabitant forward to take more control or move them back to allow me to have control. My inhabitants are pulled to far forward and have been a long time. They have to much control. I must have them pulled back (diminished) so I personally have greater authority within my own body. This is 24/7.

They control my energy level up or down, extreme fatigue, involuntary yawning, confusion, hunger, emotions and complete mental state. They diminish me to the point I can not work or hold down meaningful employment.

“I am not who you think I am”, is what they always tell me and also “you can't ever do anything the remainder of your life”. Whatever I try to do they will not let me. They can put me to sleep and wake me up, I am by all practical purposes a biological robot!

This is just technology. Please help, before it enslaves the world and future generations. They put something invisible that I can feel on my head that the military uses to help their troops in the field, it can apply pressure, pulsate and heat different parts of the body. It can also cause constipation. They target a weak part of the body so they can easily create pain. Manipulating joints, groin, bowels and other sensitive areas.

They have the ability to lock you down in extreme pain and harvest pain sensors from other people and give them to you and adjust the extreme pain up and down. They have the ability to do whatever they want whenever they want to with any aspect of your body. This has been going on by the same group of people for a very long time.

Gaslighting or gas-lighting is a form of mental abuse in which false information is presented with the intent of making victims doubt their own memory, perception, and sanity. All Targeted Individuals will have similar but different stories because they have a basic procedure (format) that they wrap around your individual circumstances. Because they pull things out of your own mind and use it to pull your conscious mind into the story line to facilitate their mind control agenda that they have perfected over a very long time. It would not surprise me to find out that they are using techniques from POW's . Mind Control.

In this scenario they call themselves Mason's and according to them they control the World as we know it. They do skits similar to a screen play with all sides covered and all the inhabitants and participants participating that goes on for days if not weeks. While they put you to sleep nodding off for fractions of seconds so that you miss “a word” within the conversation and cause confusion. Also cause sleep deprivation. They bring a very large group of participants that are both inside of you and outside of you. Even from early child hood that you have not communicated with since childhood. The majority of my family are inside of me as inhabitants. But remember it is all pulled out of your own mind.

They use "False Flag", false scenarios, manipulation and outright lies about yourself your family community and their ability or willingness to help you. However everything they do is to destroy you. It is different from having an outside influence attack you or try to influence you this is internal and for some reason you trust it because it is coming from within your own mind. I can't find words to explain how easy it is for them to manipulate me over and over again. Why would I even begin to trust them. And yet that have done it so many times. But they are with me 24/7 and control thoughts and emotions. But somehow it is embarrassing to know they still manipulate me.

They created extreme pain in my head and they would not stop even though they knew it was just torture. I asked them and they did not want me to do anything. It was just torture. I believe that they are trying to get me to commit suicide. Why else would they just cause extreme pain to someone who is defenseless against satellite technology.

This technology should not be used against the American population. With remote neural monitoring and other technologies they have complete control of everyone. So there is no need to induce pain on anyone.

I want to let you know that you and your staff may not be your own. They are torturing me. But if they were not they have the ability to do everything perfect. They can raise anyone to a mental and physical state that would allow them to be at their peak performance 24/7. I am sure that some of the congressmen and women are at their very best because of this technology. They have the ability to give you words that you speak out of your mouth and those words would not be your own. But could be very helpful in public speaking venues because you would not miss a word.

They have the ability to bless you or curse you within the same technology. If you are already one of those that have been blessed by this I sincerely pray that you remember to protect the rest of the civilization from it. Heaven or Hell is Congress's to create, we need laws to protect us.

They control everything electronic, meaning all communications and everything else. If someone is targeted they may not have the ability to complain or notify anyone. If they do they may choose not to reach out to friends and family because of the fear that the controller – technician's might enslave anyone they come in contact with. I cannot communicate in any way without them knowing it. If I know it then they know it. No secrets of any kind. Not a password, account number or anything! They are me.

The shootings previously mentioned could not have happened without the controller – technician's knowledge or direct participation.

It is just technology that reads and controls the brain without any technology on or inside the body. It is all from a satellite and it can control every man, woman and child. We are no longer our own! Protect us all. Every man woman and child that lives today or that will ever live! Today's decisions within the government will affect mankind for all eternity.

We as citizens are dependent on Congress to propose and enact laws that benefit and protect it's citizens.

I am asking you to contact whoever (Congressmen 20 per week) you can and tell them to release us from this satellite technology that has enslaved me.

Thank you for your help.

The World is not what you think it is!
