

I confess to you, during the period I was experiencing the harassment that a Targeted Individual endures I made the mistake of losing my faith. There were several potent satanic lies that I made the serious mistake of believing.

The most critical thing for each of you to remember is to **NEVER LOSE YOUR FAITH**. It was only because of restored faith that I was able to reach a place of safety. Expect to be tested & expect the testing to take you through your worst fears. **STAY CALM**. God will lift you up when the time is right.

There's one more vital reminder for each of you—Satan is legalistic & always on the prowl. After surviving his plan A, you **WILL** be contending with his plan B &, after that, his plan C. Stay vigilant & be smart--wise as a serpent, harmless as a dove. Yeshua really loves us & wants to get us out of this mess. **OBEY HIM**. He knows what he's doing.
