

TARGET #8

I have one neighbor who has her kids running up and down the staircase all afternoon non stop 7 days a week I can hear the sound in my living room. She also has allowed one of her kids to throw a New Testament bible on my back Porch by my living room window on the ground, She knows that I'm a Christian and she told me that she doe's not believe in God and that she allowed one of her kids to do it. She also put something on my doors on the front and the door going out on the Porch. She also follows me everywhere I go in town no matter what street I take. I also get persecuted by some people in town every time I go out. I also want you to know that my landlord won't do anything about this problem with my neighbor that's giving me a problem. I have no form of support. This area has a lot of witchcraft in it. Thank you for listening....
